

Center for Research on Innovative Simulation Software

[Research and Development of Advanced Simulation used in Industry]

<http://www.ciss.iis.u-tokyo.ac.jp/english/>

Aiming at Innovation in MO-NO-DU-KU-RI

Advanced simulation software drastically changes engineering

For developing leading-edge technologies to simulate all processes from material development to disposal and meeting the demands of building a sustainable society, Center for Research on Innovative Simulation Software (CISS) is reconstructing and dramatically strengthening core competencies in dynamics and developing fundamental technologies that are implemented to advanced simulation software. We aim at

- ◆ Conducting world-leading advanced research on hyper-large-scale simulation software
- ◆ Strengthening the educational foundation to educate how to make and use hyper-simulation software for industrial application
- ◆ Putting R&D results in common industrial use to enhance global competitiveness of domestic engineering
